Select in the menu « **Request in-dev ISAN** »

ISAN Services

- # Create single ISAN
- # Create serial ISAN
- # **Request in-dev ISAN**
- # Follow-up in-dev ISAN
- # Search from work info
- # Search from ISAN or V-ISAN
- # Display pending ISAN
- # Affixing ISAN
- # Create V-ISAN
- # Display Match Result

- **Case 1:** you need an In-dev ISAN for one AV content at its early stage of production => enter **1** in the field “number of non episodic in-development ISAN” and click on OK.

ISAN - Request in-development ISAN

Already existing in-development ISAN : 70

You should use in-dev ISANs as of the early production stage. In-dev ISANs should not be made public unless activated.

- Please click here to create in-dev ISANs for serial A/V works:
- Number of Non-episodic in-development ISAN :

items : 1 - 1 from 1

ISAN identifier

0000-0003-16E6-0000-0-0000-0000-2

items : 1 - 1 from 1 page : 1 >

At this stage, the number delivered is not active and only visible by the registrant and by your RA Administrator.

If some of the AV content descriptive information is available, you can already update the in-dev ISAN or do it later on.

Select in the menu “**Follow-up in-dev ISAN**” and click on the in-dev ISAN you have just received.

ISAN Services

And complete the metadata as for an ISAN creation (refer to **ISAN DEMO: 1 – ISAN CREATION**).

You are allowed to activate the In-dev ISAN into an Active ISAN only if you have completed all the mandatory metadata.

Title information		
Original	Language	Title
Core information		
ISAN	0000-0002-A628-0000-T-0000-0000-O	
Type	Music video clip	Kind

Duration		
Colour	Yes	
Composite	No	
Production information		
Coproduction	No	
Participant information		
Type	First Name / Last Name	

Click on  to display the 2D barcode for this ISAN

⏪ Back ⏩ Activate ⏩ Save

In this above example, the In-dev ISAN can't be activated since some metadata are still missing (no title, no participant, no year of reference, etc.)

- **Case 2** : you need some In-dev ISANs for a series at its early stage of production => click on “is episodic”

ISAN - Request in-development ISAN

Already existing in-development ISAN : 70

You should use in-dev ISANs as of the early production stage. In-dev ISANs should not be made public unless activated.

- Please click here to create in-dev ISANs for serial A/V works: ▶ Is Episode
- Number of Non-episodic in-development ISAN : ▶ Ok

Then search or create a Serial Header - Refer to **ISAN DEMO: 5 - SERIAL WORKS**.

Once you have retrieved / created the Serial Header and have selected it, enter the number of In-dev ISANs you need and click on “OK”

ISAN - Request in-development ISAN

Number of IN-DEVS for this Serial Header ▶ Ok

At this stage, the numbers delivered are not active and only visible by the registrant and /or the RA Admin.

Then the episodic In-dev ISANs can be updated and activated as explained for a non episodic in-development ISAN.

The number of In-DEVs for the serial header in the screen below corresponds to the quantity of episodes requiring an ISAN; it does not correspond to the episode number (Episode # 1, episode # 2..., episode # 12)

ISAN - Request in-development ISAN

Number of IN-DEVs for this Serial Header **Ok**

Days Of Our Lives (ENG)

RECOMMENDATION: Prior to any registration, perform a search in the database to check whether the title has already got an ISAN or not. Please refer to **ISAN DEMO: 2 – ISAN QUERIES & UPDATE**
Once an In-dev ISAN is activated, no match is performed and potentially a duplicate can easily be registered.
